THE BRIDGE
TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact with The Great White Brotherhood and Cooperative World Service

Volume V APRIL, 1956 No. 1

To the Cosmic Spirit of Resurrection:

Greetings and blessings from every God-free Being Who has used Your resuscitating powers to energize the Divine Image of Perfection and Who has risen on such a Resurrection Flame to the rightful place of Immortality!

Free-will has allowed self-conscious intelligence to create for themselves disease, decay and disintegration. The Spirit of Resurrection stands awaiting the invitation of those who truly desire to return to the Father's Home! For every such an individual, this Spirit of Resurrection will act! Accept It! Use It! Through self-conscious endeavor perform the miracle of resurrection through your souls, your bodies, your homes and your worlds!

As We celebrate the Resurrection of the beloved Brother Jesus, We invoke all the powers of the Resurrection Flame to anchor into the *feelings* of all mankind and become for them, not only hope of restoration to Divinity, but actual manifest expression of that Divinity! Open your minds and hearts, children of Earth, to the Spirit of Resurrection and BE FREE!

The Homes and Retreats of The Masters of Wisdom

TEMPLE OF COMFORT—Ceylon

April 15th through May 14th, 1956

Our Lord, Maha Chohan, is the Being Whose obligation and responsibility to life is to supervise, guide, guard and assis Those Beings Who represent the Seven Rays of endeavor t the planet Earth. Each Chohan serving under Him has specific service to render in developing every angel, man an elemental who belongs to the Ray which the Chohan ha qualified to represent. Thus the comforting radiation of th Maha Chohan is received by the Seven Chohans Who serv under Him and, in turn, each Chohan intensifies, energizes qualifies and directs the specific radiation which He has bee trained to create and develop. This individual Ray pours ou to all the evolutions above mentioned and stirs the spiritua nature of those who chose to come forth from the Inne Realms, taking embodiment upon the Ray which He direct into the atmosphere and vehicles of all belonging to Hi evolution.

Every self-conscious intelligence has developed, throug aeons of time at Inner Levels, specific powers and activitie which form the widest bands of colors in their Causal Body.* Then, at the time when individuals are chosen to embody just so many are chosen from each Ray (according to th momentums of qualified energy which represent the colo bands in the Causal Body). Each such an one becomes th responsibility of the Chohan of the Ray He represents in th

world of form. It is then up to the individual Chohan to help the embodied angel, man or elemental to release from his own Causal Body the full gathered momentum of his talents, powers, gifts and activities for the blessing of the race, as well as for his own personal development and mastery.

Many lifestreams (not awakened spiritually) come under the "mass protection" of the Chohan of their Ray. Those who are ready to consciously endeavor to release from their Causal Bodies those gifts and powers of the Ray to which they belong, come under the specialized individual attention of their Chohan. In times of national, international, planetary or Universal crises, each of the Seven Chohans endeavors to stimulate the desire within the outer consciousness of as many as possible upon His Ray to reach up into their own Causal Bodies and draw forth the stored-up momentums of good which are there, releasing it for the enrichment of the emotional, mental, etheric and physical bodies of the people, as well as their protection and general advancement of the entire evolution. When individuals *capable* of such service are found, they are given every assistance by the Chohan Who is Supervisor of their Ray. When specific service is required and added stimulus desired, the Chohan has the right to appeal to the Maha ("Great") Chohan (Who is His immediate Superior) for advice and assistance in developing a chela of possible merit to the Evolutionary Scheme.

The Causal Body is merely the stored-up energy which has been used harmoniously by each lifestream. It forms the "treasures laid up in Heaven" of which the Beloved Brother Jesus spoke. This energy will be released at the call and direction of the individual who qualified it, when he knows how to prepare his lower vehicles to be "conductors" of that already qualified perfection for the blessing of his fellowman. Such preparation requires the harmonization of his four lower vehicles and their purification by the constant, determined use of the Violet Fire of Mercy, so that this energy may flow freely through all the strata of consciousness to be benefited and raised by Its Presence and activity therein.

In Ceylon, there is a focus of great light, beneath a great tea plantation, hidden from the prying and curious eyes of man. Here the Being known as the Maha Chohan conducts His service of counselling and assisting His Seven Sons (the

Seven Chohans of the Rays); also helping to develop and mature such chelas as any One of these Chohans might recommend for special assistance.

The aura, made up of the energies of the emotional, mental, etheric and physical activities of the unascended, must be sublimated, purified, transmuted and prepared to become a replica of the glory of the Causal Body. Thus the chela becomes a conscious "conductor" of the perfection of the Ray to which he naturally belongs. Every individual takes embodiment at least once under the direction of the entire Seven Chohans, in order to develop a balance and maturity of his own nature on each of the Seven Rays. When an individual belonging to one Ray by nature, takes embodiment under the direction of a Chohan of another Ray, there is often a "conflict" between natural tendency and present duty. However, sooner or later, when the individual becomes master of the qualities and virtues as expressed by the entire Seven Rays, he returns to his own Chohan and completes his cycle of expression on this Earthplane under his own particular Chohan and Master.

Individuals should not worry and fret too much as to which Ray they naturally belong. All is under Divine supervision and Divine order and as long as such an individual lives his life in harmony, purity, peace and service, he is fulfilling his present "assignment" and cannot fail to return to the natural Ray under which he will complete his service and return Home to go out no more.

Our Lord Maha Chohan has the great responsibility (as He tells you in the letter contained in the pages of this issue of our humble journal) of bringing Comfort to all life—on every plane. To help Him fulfill this obligation, the Seven Chohans serve selflessly to develop and mature the seventh portion of evolution which is Theirs to evolve and protect (the Seventh Ray governing the Earth at this time).

Often, within the Council Chambers of the Beloved Maha Chohan, plans are discussed in unity and peace and the cooperation of the Chohans is pledged to one particular service which will be of impersonal benefit to the entire evolutionary scheme. Often, too, the individual Chohans apply to the wisdom and understanding of the Maha Chohan in order to accelerate Their Own individual services. He has never failed to give such assistance; not only willingly, graciously and generously

but with tremendous interest in the projects of what He calls "His Boys."

To the masses which make up the majority of the members of the human race, the Elemental Kingdom (including birds and the four-footed creatures who have no words to express either their aspirations nor their desires) the Maha Chohan is a COMFORTING PRESENCE.

To the "few" who desire to help Him in His service, He offers the training, discipline and self-control required to become Comforting Presences to others. Thus He prepares individuals to be "conductors" of His Nature (the expression of the Holy Spirit) to mankind and the attendant evolutions developing in, through and around the planet Earth at this time. These "few" are usually recommended by the Chohan of the Ray to which they belong or they may apply personally (through the Holy Christ Self) for such training at the Temple of Comfort. Those so applying are given opportunity for such individual attention of this Great Lord. From the directions and instructions given to them and due to the proximity of their souls to His Person, they gradually develop a nature like unto His Own. Thus they truly become the Holy Spirit *in person*, acting as outposts of His Divine Presence in the environment in which they abide.

Do you honestly desire to be such a Comforting Presence to ALL LIFE, irrespective of personal attractions and interests? If so, enter the Temple of Comfort. Stand before Its Hierarch and be willing to comply with His directions. Then witness the effect of your endeavors in the world of those around you. You will require no other measure but your own influence upon the life around you to determine how much you have achieved by such aspirations and consequent service in His Name.

(NOTE: For further description of the Temple of Comfort, please see "The Bridge to Freedom," Volume I, No. 2; Volume 3, No. 5; and Code of Conduct for Disciple of the Holy Spirit.)

ESTABLISHMENT OF FORCEFIELDS BY OUR LORD, THE MAHA CHOHAN

"When it was perceived that My beloved Sons, El Morya and Saint Germain were going to endeavor to again present certain truths to interested people upon the planet Earth, I conceived

the idea of developing (outside the Ascended Masters' Retreats) certain specialized foci of harmoniously qualified energy which could be used for the expansion of the Nature of God through the emotional, mental, etheric and physical worlds of mankind.

These foci would depend, primarily, upon the interest, sustained enthusiasm and inspiration of those who desired to contribute to the impersonal welfare of the planet.

In the Ascended Masters' Octave, all Beings (while fully master of all energy entrusted to Them by God) chose to specialize in the magnetizing, qualifying, expanding and sustaining of some *specific* service by which the race as a whole might benefit. It was thought worthy of the time and energy expended to *try* to inculcate such an interest in groups of unascended beings and thus accelerate the progress of the entire evolution in, through and around the Earth.

Each Ascended Master Retreat is dedicated to the expansion of some such Divine blessing. In time, with patience, harmony, constancy and love, unascended beings will create and sustain some Divine blessing which is a power that can be invoked at will by any and all other interested lifestreams in times of crises.

A "forcefield" usually takes on the form (pattern) of the actual activity which a group of individuals desires to magnetize and radiate forth for the impersonal blessing of all life. This "forcefield" is as powerful as the interest, enthusiasm, faith and *constancy* of endeavor of its component parts (students). A "forcefield" will take on the shape (form) of the service to be rendered, without the conscious use of the mental faculties of the students, but this form becomes more powerful, more clearly cut out of Universal light and more enduring, if the mental faculties of the leader and the students help to sustain It in a certain definite pattern. If the pattern is constantly changing, according to the whim of the leader, it is more ephemeral and the responsibility for its sustenance lies primarily with the invisible Builders of Form. If, however, the leader and the students work together to create and sustain a particular "forcefield", energizing it by their life (in visualization, song and decree) it gradually becomes more distinct, powerful and efficacious in the emotional, mental, etheric and physical worlds, wherein the greatest requirement for assistance presently lies.

In the early Golden Ages, these "forcefields" were well known to the Priests and Priestesses Who officiated in the various Temples dedicated to certain specific God qualities; i.e. protection, healing etc. The mass of the people often made pilgrimages to such foci of specialized blessing and benediction, bathing in the full, gathered momentum already established there by those dedicated to this service of magnetizing, sustaining and radiating their gifts of life for the impersonal blessing of all mankind.

Again, as We enter the gates of the Golden Age of Freedom, We are endeavoring to stimulate the desire within the hearts of the "few" to so establish such "forcefields." Thus, each group becomes a radiating center of certain God Virtues; also learning the power of concentration and impersonal service.

Mankind enmasse suffer from many limitations and the range of possible services is limitless. Usually, in the unascended state, one individual strongly impressed by a desire to help his fellowman, will catch a glimpse of one particular service and then, in turn, through the power of persuasion, gather around himself others who are interested in a similar project. These "forcefields" are like beautiful flowers upon the person of the Earth. In time, all chelas will know what specialized activities are magnetized at certain points upon the Earth's surface and they, in turn, may ask for the assistance of such already established "forcefields" to assist them in particular local crises.

The purpose of the establishment of such "forcefields" is not to exploit the personality nor the efficacy of any individual or group but to so magnetize and sustain certain God-qualities so that they are always available for the use of all. It is so with the Ascended Host Who offer *all* Their momentums of perfection to any *one* member, when Universal progress will result from such selfless service.

The Transmission Flame Classes were also instigated at My humble suggestion, so that the individual "forcefields" might magnetize into their momentums the already gathered Cosmic Momentums of the Ascended Masters' Retreats. This is done, primarily, through the inbreathing of the substance of the Flame and Virtue of that Retreat! Then, the sincere and selfless students (using the magnetizing center of their forcefields) expand these Virtues into their localities (through

the expansion and projection of their breath). Thus, unascended beings are learning to work with and expand the service of the Ascended Masters' Retreats.

We are very well pleased with the sincere interest in this Endeavor and the kindly cooperation with it by so many individuals across the face of this sweet Earth. The "forcefields" in time can be made permanent and will remain long after the original leader and his group have ascended into the Realm where We abide. I recommend most strongly the necessity for examining the *motive* behind the establishment of such a "forcefield", as well as recognizing the need for absolute unity, cooperation, constancy of endeavor and true loving desire to impersonally help the race in its uphill climb back to its God Estate.

The projection of the consciousness of the students into the actual Retreat does not neutralize the activity performed by their physical bodies which are actually breathing the Flame from that Retreat into and out of their bodies. It rather increases the capacity of each such an one to be a "conductor" of the Light and Power of that Retreat into their local orbit.

If you have not yet decided upon the type and quality of your group and individual service, I strongly recommend that you soon do so! The world and its people require health, peace, illumination, financial freedom, faith in God, liberation from the many "woes" that spring from conscious or unconscious allegiance to the "shadow-world"! Become a forerunner of an era and age wherein the Temples of the Sacred Fire will again be manifest *in this physical appearance world.* All large activities have a *"small beginning"* . . . from the embryo to the seed idea of a planet, a Universe or a Galaxy! The *importance* is in BEGINNING NOW!"

(NOTE: To Sanctuary and group directors: If you have a form for the center of the "forcefield" of your group endeavors, please have it drawn on paper as soon as possible and thus give your students a pattern to visualize. Send a copy of this "forcefield," together with the explanation of the particular service you desire to render through it, to Mrs. Frances K. Ekey (who is in charge of Group activities), care of "The Bridge to Freedom," P.O. Box 335, Philadelphia (5) Pa. Thus we shall learn of your marvelous endeavors toward the establishment of various foci of God's Virtues on the Earth. We shall also have a physical representation of your "forcefield" before us, upon which we may call on behalf of any who might require the particular assistance of your momentum already gathered. Thank you! Your Editor.")

Excerpts from an Address by

BELOVED MOTHER MARY

On: The Conscious Qualification of Energy

July 1, 1955

Beloved children of God, I Who have guarded, guided, loved, protected and sustained you through many, many ages, bring to you today the blessings of Our Beloved Jesus, the radiation and the Presence of the Beloved Uriel and that particular vibration of Divine Love which changes hate, bitterness and distress into peace and well being. Will you accept it, please? The negative qualities mentioned above have caused the accumulations of hardness in both the mental and emotional bodies.

As warmth entering into a room changes its atmosphere into a more pleasant one, raising the vibratory action of that atmosphere into comfort, so does the radiation of grace and pure, impersonal Divine love carry through the life stream of an unascended being, the transmuting action of the Sacred Fire to energies which have been solidified through many bitter experiences in the course of the ages. These are the causes of all "hard feelings".

Beloved ones, I have been asked to present to you the inner pattern of this week's activities in their very simplest form. They are the creation by conscious application of a spirit of grace, kindness, tolerance and understanding by which true World Brotherhood is expressed. This spirit of grace is a substance! It is a radiation and a pressure of energy! Just as the pressures of discord, the whirls of anger and those various discordant qualities entering into the world of another lifestream can cause distress, so do pressures of a constructive radiation bring peace and healing.

The mastery of your own energies becomes the path for your own individual Ascension. The mastering of those energies is the process which has been referred to as the "darsham" of the East; as the "grace" of the Christian dispensation and as the Violet Transmuting Fire of Mercy and Freedom of the New Era under My Beloved Friend, the Ascended Master Saint Germain.

Those of you who have studied through the years well know that energy is powerful; that there is no beating heart (from the tiniest infant lying in the cradle to the most elderly lifestream awaiting the summons of the Karmic Board through so called Death) who does not draw energy (life). The magnetic center within the heart, drawing the electrons from the "I AM" Presence, creates a focus of energy enabling the individual to have thoughts, feelings, etheric memories and physical acts.

You are dealing primarily with energy. In fact, you are "energy centers"; "vibratory centers" sending out into the Universe that which is a blessing to life or that which adds to the distress of the world. You chose, as did every man and woman who is upon the planet today, to use life to experiment with energy. You chose to learn through trial and error what energy could do. The returning circle of that energy which carries the stamp of your lifestream (the electronic pattern of your life) is the karma whose cause you do not always recognize, but which can bring you either blessings or distress in the experiences of your world according to the feelings with which you qualified it when you sent it out.

Now, beloved ones, We come to a point where We desire some members of the race to understand just the simple fundamental—that *energy does not act except under the direction of some self-conscious intelligence.* If you are going to let the bodies which were fashioned for you by the great Builders of Form (into which bodies you have drawn so much misqualified energy)—if you are going to let those bodies direct your life, you will have to handle the return of the indiscriminate qualification of the energies which the etheric, mental, emotional and physical bodies have catapulted forth into the Universe! Instead of this, you should give the dignity, authority and power of directing that energy back into the glorious Threefold Flame of God within your heart. Your vehicles were fashioned, blessed hearts of light, as instruments through which you might create as the Godhead Himself creates; . . . through which you might pour forth into the mental, emotional, etheric and physical Realms, the perfection of your own "I AM" Presence. These bodies were not created to be independent, indulgent, rebellious, gluttonous vehicles which

steal the energy of the Godhead and send it forth to distress life!

Now, in the action of "darsham", what do you do? Within the contemplation of your own blessed heart; within the "closet" of which Jesus spoke; you find the "center" of your being; that "center" which has been referred to in previous terminology as "The Secret Place of the Most High". It is the Immortal Three-fold Flame of God which lives within your heart. *There* is enthroned your Divinity, era after era, age after age, patiently choosing to inhabit and sustain your form, hoping for the opportunity of fulfilling Itself through the vehicles which It holds in form by the very magnetic power of Its Divine Love and keeps from dissolution.

When you find that "center" within your heart; when you enter deep within that Immortal Flame and you can accept the mastery which is there, then in dignity and firmness you can put your house in order. You know, you are afraid of your own bodies! You are afraid of what you will do under stress and strain; of how your thoughts and feelings will act and of how the etheric memories will surge forth. Therefore, you are not fully master in your own home! Can you not give to this Three-fold Flame (this "I AM" Presence within you), the confidence to control the servants of your household? Can you not release yourself from the tensions which are so evident, and allow the Lord of Life (the very God of Heaven!) to assume the Mastery of your vehicles? Holding your mind up to your own "I AM" Presence, use it to receive Its Divine ideas; use your emotional body to radiate forth whatever constructive quality is required in your homes at any given moment, in your group activities, in your nation or in the world. The emotional body was created primarily in a very pliable and elastic form so that it could be expanded until it becomes planetary in size, if it is a good "conductor" of that which mankind need. All of the world, beloved ones, is your schoolroom. There will not be a day pass in which you will not meet energy from the consciousness of individuals who have no idea of mastery and control, which will either change your energy into a like turmoil or which you will sublimate and transmute; NOT BY WILL BUT BY LOVE!

(Continued on page 17)

THE MASTERS

(ON: THE *USE* OF TH

MAHA CHOHAN:

Life, in its primal essence, is obedient to the qualification of self-conscious intelligence (Ascended or otherwise). Those Beings Who have chosen through Their Own thought and feeling centers to develop a momentum of the resurrecting power, give that power as an impersonal heritage to all life following Them upon the Pathway toward redemption. Thus, there are momentums of healing, of peace, of illumination, of resurrection, etc. which can be magnetized and utilized by any and all Kingdoms in order to develop and purify their individual worlds, as well as the Kingdom to which they belong. Such is the Spirit of Resurrection. Many of mankind know nothing of the Presence of this Spirit and fewer still know how to tune into that Spirit and make It their own. The Nature Kingdom, of which I Am a Supervisor, opens Itself eagerly, willingly and obediently to the infusion of this Spirit and, through It, manifests the so-called "miracle" of Resurrection in each Springtime. These comparative Few Who have already made Their Ascension from this Earth (desiring within Themselves to resuscitate the energies of Their worlds) have also used It and Their Freedom and Ascent from shadows have proven Its efficacy to act for Them. At this Easter Season, when We acknowledge One Who *proved* the power of the Resurrection Flame as the victorious "overcoming of the last enemy" (death), We do hope some others will choose to invoke and utilize this Flame also and find the practical results in a resurrected soul, mind, body and feeling world.

EL MORYA:

Within the soul of man there lives the Immortal Three-Fold Flame of Life which contains within Itself the potential power of ALL the Flames of Divinity. Even as within coal, wood, peat and other materials which ignite when exposed to *an already* manifest flame, there is combustible material which awaits the "spark" to become Flame in themselves,—so within the Immortal Spark of Divinity in every man is the *capacity* to respond to and create in ever expanding intensity the Divine

WISDOM SPEAK

T OF RESURRECTION)

Flames of redemption. The mercy of the Cosmic Law is in the provision of such already established Flames which can be invoked (when desired) to stir the smouldering embers of Divinity through the soul of one *determining* to be free! Happy is the man who chooses to use These Flames and be free of the shadows, limitations and distresses which occur when the light burns dimly and the darkness of appearances encroaches upon the experience life of the self.

KUTHUMI:

As within one drop of water all of the elements of the ocean and sea are present, *so within one Immortal Spark* (hidden within the recesses of the soul) *all of the elements of the Sacred Fire abide,* waiting to be called forth for the redemption and resuscitation of the soul and outer self. Many sincere students look *without* for redemption rather than *within.* It is to turn the attention and consciousness of the student back to the Flame within the heart, that We come. Here, contemplating the potentialities of his Own Immortal Flame of Life, the student quickens to a realization that from this Individualized Flame there will flow whatever qualification of the Sacred Fire is necessary and expedient to set his personal world in order; as well as to become a part of "The Light of the World."

PAUL, THE VENETIAN:

Some people call the Immortal Flame of God within the heart, "The *Presence* of God", others refer to It as the Holy Spirit. Regardless of the Name they choose to give It, it matters much the amount of freedom We allow This Presence to act through the outer personality. All in Our Octave have used certain aspects of This Flame and have achieved Freedom, Liberation and Immortality thereby. Each such an One adds to the Cosmic Power of the Impersonal Flame, whether It is of healing, illumination, resurrection, precipitation, faith or peace. This entire heritage becomes the common property of

all who follow upon The Path *if they accept Its reality and choose to use It.* Thus you have the privilege of utilizing the life energies of *Those Who have become that which you desire to be,* if you can be humble, grateful and desirous of "reaping where others have sown". Many, beset by the sin of spiritual pride, prefer to sow for themselves and reap their meager harvest without the assistance and loving cooperation of the Elder Brothers and Sisters of the race. Because of free-will, all are given opportunity to walk alone or in the company of the Elect.

SERAPIS BEY:

The Resurrection Flame is a mercy provided by life and sustained by Those Beings Who, seeing the shadows of limitation and distress, knew that sometime and somewhere individuals would cry out for a Way back HOME. These individuals are at liberty to utilize this Resurrection Flame which ignites the potential power of resurrection within the individual's own heart and thus experience a personal resuscitation of the powers they knew in the heart of the Father-Mother God before the world was manifest as mankind knows it. As any trained woodsman knows, it is more difficult to kindle a fire with wet timber and no externalized flame than with dried timber and a medium (match or flint) capable of creating the stimulus to fire in the reluctant substance which is to be the bonfire. In like manner, it is more difficult to kindle the powers of Divinity within the soul, feelings, mind and body of one whose vehicles of expression are not already receptive to the Flame, than it is to draw forth the powers of Divinity within one whose vehicles are prepared for such a transformation. The Cosmic momentums of the Flames which are acknowledged by the Spiritual Hierarchy; fed by Their breath; sustained by Their guarding Presence; can do much to ignite the spiritual spark within a man, *if he chooses to accept Their Presence and invoke Their assistance in his own behalf.* For this reason, the Spiritual Hierarchy has chosen to point to the Foci of the Sacred Fire already established and available for all who choose to use These momentums in such a manner.

HILARION:

Even medical science affirms that, although they can do much to assist in the preparation necessary to allow the healing

of the body to take place, *the actual healing comes forth from within the patient.* For instance, the good doctor "sets" the broken leg but relies upon the intelligence (healing power within the body) to perform the so called "miracle" of knitting the bone and restoring mobility and usefulness to the injured member. How many good practitioners have said that it is the *will* to live which performs the actual alchemy of restoration and healing? This is likewise true of the spiritual development of the student. Within the Immortal Flame of God anchored in the heart, is the potential power of every Flame. The *Will* to connect with the already established Flame of a certain quality and virtue, assists the earnest and sincere student to develop the "spark of Divinity" into the Flame of Resurrection, healing, illumination, peace or whatsoever the student requires most at any moment upon The Path. Ignoring the *power to ignite* (which already lives in the Sacred Fire), makes the development take longer and is an unnecessary hardship upon the spiritual Path back Home.

JESUS:

The Resurrection Flame is a power which has been developed and utilized by many of Us in the endeavor to prove that mankind can, at will, use It for their own personal redemption. The first requisite in such conscious resuscitation of the personal nature is to acknowledge that a focus of that Resurrection Flame is *within* each human heart. The second requisite is to humbly accept the already established momentum of this Resurrection Flame to kindle, develop and expand their own focus of that Flame to a point where it literally "catches up" the energies of thought, feeling, memory and physical decadence and restores all the vehicles of expression to their natural estate as "conductors" of the God light. What I did, I promised all men should do. When will man really accept the promise within those words, which surely I proved in my own experience? I patiently await that day!

SAINT GERMAIN:

My service in The Great White Brotherhood is to teach the conscious power of invocation of already established momentums of the various virtues belonging to the Godhead, for the stimulation of the dormant Divinity within mankind.

My Activity will only appeal to those who believe that other Beings have developed and sustained these virtues and that the momentum of Their service is available to those who desire to invoke Their powers and use Their gifts for their personal blessing as well as the blessing of the evolution to which they belong. There is nothing mystic or occult in the Presence of the Flames of God which have been drawn and magnetized by lifestreams who have freed Themselves from limitation by Their use. Likewise, there is nothing mysterious in the magnetizing of these Virtues and momentums to stimulate the expression of Divinity through every lifestream. It is a science, —exact and irrevocable in its activity, for those who desire to use it. Most of the civilized world benefits from the discoveries of electricity and other gifts of science, although few used their personal energies to develop these gifts. On the spiritual frontier, there are also tremendous Foci *already established* and *equally available* to the entire race. This is a heritage left by the Great Ones Who drew, magnetized and sustained these gifts for the use of those brave enough to experiment with Their Presence in the Universe. Such a gift is the full, gathered Cosmic momentum of the Resurrection Flame! The Nature Kingdom uses it (not knowing the full details of Its inception and sustenance). For the most part, mankind have not chosen to believe in Its Presence nor to draw into their own spark of Divinity the practical, working activity which could transform all shadows into light. For the few willing to experiment with the power of the Resurrection Flame, We all stand willing to assist in directing this Flame from the heart of the Sacred Fire through the *individual soul,* stimulating the potential Resurrection Flame within them! I wait to see who among you will do this! The Sacred Fire is merely concentrated energy qualified with a virtue and power which is available to help any man to develop his own potential Divinity. It is called "Sacred Fire" because it is God-qualified. Its potential is within your own human heart. Call It forth; bathe in the full, gathered Cosmic momentum of this Flame given to you freely by Others Who have fed It by Their faith; sustained It by Their constancy and expanded It by Their use of It in Their personal redemption and planetary or Universal service. I challenge you to TRY! We shall see!

Beloved Mother Mary— *(Continued from page 11)*

When you are dealing with individuals who require instruction on the Law; when you are dealing with people in pain and distress; in fear or in anger; the very first thing you must have is some capacity to utilize the activity of "darsham" (grace) and draw from your Causal Body God-qualified energies which fill the atmosphere of the room and are the Master control, *before you attempt your service.* When you come to the service of handling great numbers (and who knows, in the days and years ahead, how many lifestreams may be saved or otherwise, according to the development of this particular activity within you) are you going to be able to connect your emotional world with Mine; your mental world with Lord Maitreya; your physical bodies with Lord Michael? Are you going to be able to plant your feet firmly upon the rocking surface of the Earth or the rushing tides of the sea as Jesus did, commanding and securing PEACE? Are you going to be a comfort; a balance; a protection; a healing "conductor"; or are you going to be swept into the chaos of the uncontrolled?

Beloved friends, this is a very serious and important activity. Somehow we must reach your outer mind to a point where the holding of your emotional balance; the holding of your peace; the holding of that spirit of good-will and tolerance becomes important enough to you so that you will relinquish the rights of self (if necessary), and learn to be the outpost of Ourselves which you profess and decree that you wish to be.

Cosmic moments come and go! I have lived through many! In those moments, if you are not prepared and at peace, you are temporarily cut off from The Brotherhood as a channel for Their outgoing controlled force which would but energize your chaos, were They to pour it out to you when you were in distress. The Great and Holy Brotherhood is *one* and within It is all the gathered consciousness of every Being Who has attained the right to become a member. Within It, is all the light, love and momentum of Jesus' victory; all the fire, strength and will of Morya; all the wisdom and kindness of Kuthumi; all the tolerance and selflessness of Paul, the Venetian; all the purity of Serapis; all the scientific knowledge of Hilarion and all of the gathered momentums of the power of invocation of Beloved Saint Germain.

Every One Who enters that Brotherhood gives His all to It. It is enriched by each One Who has ascended and becomes a part of It. That total momentum of light is accessible and available at the moment of any Cosmic crisis! The Great Cosmic Silent Watcher, looking upon this planet, may see certain vortices of destructively qualified energy gathered. He then speaks into this substance of The Brotherhood (of Ascended Master perfection referred to above which is like a great Causal Body) and He also speaks to those Who guard it. Then individual Silent Watchers of the localities in question and Seraphim take from that substance the particular power and qualities of perfection which They require, focusing it down into the causes and cores of the distressing vortices, transmuting their destruction into light. For this purpose, They often use the bodies of harmonious chelas wherever they can find such a "conductor" on the surface of the Earth. Such a "conductor" becomes a channel, just like a funnel. Through that one's mind, feelings, etheric body and flesh They are able to give the full gathered momentum of The Brotherhood into the locality where such a "conductor" abides. At the time these activities are taking place, if the particular chela who has been sponsored by some Member of the Ascended Host is in a condition of distress, the great Seraphim have to look elsewhere to find some harmonious lifestream, perhaps one wholly "unconscious" of the Ascended Masters and therefore not as good a "conductor" as a student who has used the purifying Violet Flame. Through such an "unconscious conductor", a *thread* of benediction flows, whereas a conscious chela would be a *great conduit* of light. Do you see?

The "unconscious conductors" have served Us often through the ages and they are blessed indeed! However, just as the inside of a pipe becomes corroded and filled with impure substance, so does the consciousness of the average individual become filled with impure thought, feeling and etheric substance, unless there is a conscious use by that individual of the Violet Fire which compels the purification of their individual lifestreams. Therefore "unconscious conductors" do not make as wide an open door for the Masters' service as do conscious chelas who have used the Violet Fire of purification. It is a tragedy indeed for one to have worked twenty years with the Violet Fire and, at a Cosmic Moment, be unfit to conduct the

protection which might save a city! Preparation, application and purification are magnificent because, through the force-fields of your groups and through your individual selves, they create a wider and wider conduit of light. The radiation and pressures of the Great Ones, flowing through them, are a great blessing to mankind.

Remember My words! Do less if you must, but hold your state of grace; hold the harmony; hold the peace; hold those feelings of love and tolerance so that you may be ready when you are needed to serve. You are going to deal with great numbers of people in the near future, particularly when you learn to become a "conductor" of the light and gifts of your Causal Body. *Your* radiation will be different from that of any other person because the creation of your Causal Body has been an individual accomplishment. Your Causal Body has been builded from the day you first received conscious life. All through the ages which you have lived, your Causal Body has grown like a beautiful Flame flower; an aureole of living color. The services you have rendered, whether they have been patriotic, educational, philanthropic, artistic, scientific, or religious, have become your gifts to the Earth. This momentum of good awaits release through your vehicles as a radiation of light which can benefit the Earth and Her people.

Now, why let the glory of that Causal Body function only in the Inner Realms while you are in limitation; while you are experiencing age, disease and distress down here; when it is so easy to consciously call forth from your Causal Body into your magnificent Tubes of Light, the qualities of perfection which you require to bless life? Why do you not externalize for the blessing of the race that which you have prepared yourselves for centuries? Why do you not this day, entering into that "Secret Place of the Most High" (deep within the Sacred Fire in your heart) begin the release of your own harmoniously qualified energies of life which abide within your Causal Body, awaiting your call?

When you master that "art"; when your aura is so very comfortable to others; when it conducts instantaneous healing power; when you can give mankind that which they seek, you will need the strength to stand and continue to pour out your

gifts to life and not be "smothered" by the greedy and frightened energies of those who will come to you for help.

Build today, my friends! Build today! Those of you who are Group Directors, use this activity in your classwork. Use it! Where you have a group of harmonious students, there is no limit to the activities which can be released from the Great White Brotherhood to benefit the Earth at your call. Before you begin the services of your group, silently call through the energy in the room those Flames of Purity, Peace, Understanding and Comfort and then you can more easily accomplish that which should be done.

For those who have been asking—every State in the Union has a Silent Watcher over it; a Being Who is protecting the interests of that State and a Being Whose pressure of energy influences for good the Government and the people of the State. This is true of all countries and their provinces.

I love you beyond all words to describe. I have worked with you so often individually and collectively through the ages; . . . I speak to you today hoping to reach your minds and your hearts.

Thank you and Good morning!

MONTHLY LETTER TO TRANSMISSION FLAME CLASSES

BELOVED CHILDREN OF GOD, SEEKING COMFORT:

Comfort from My heart is yours for the asking! How have I attained the position (unenviable in many respects) of becoming responsible to transmit Comfort to every part of life, —to electron, mineral, animal, bird and man? It is because I desired within My heart to be a Comforting Presence to all life. My desire was coupled with action (the necessary self discipline and preparation) which qualified Me for this position. Each one of you today is qualifying yourself in like manner to become some such "conductor" of a God Virtue to the evolution which you now, or in the future, will serve.

I learned something of the nature and *feeling* of Divine Comfort from contemplation of Those Whose energies already had become Comforting Presences' and, in time, I too could

generate and radiate at will a comforting feeling to the energy around Me. One day, the call came! I was found ready to be the focus of this Virtue and I took the vow, joyously withall; fully cognizant of the responsibility of such a service. I shall remain this focus of Divine Comfort to life until another evolves to a point where He may be such a Comforting Presence and I Am released from this service to a greater one.

Today, you enter the halls of the Temple of Comfort at Ceylon. You breathe in Its essence! Throughout each day's activities you can saturate your own energies with that essence, fill your tubes of light with My feeling of Comfort and be MYSELF in action to all you contact in anyway. Thus you and I become one!

Love and blessings,

MAHA CHOHAN

GROUP MATERIAL FOR TRANSMISSION CLASSES

April 21, 1956

BLESSED FRIENDS OF GOD'S PEACE:

In the Name and Love of the Presence of Almighty God right within our beating hearts, Whose Holy Name is "I AM", we call directly to the great Elohim of Peace today to seal you and all you love forever in oceans of the Golden Flame and fiery essence of Cosmic Christ Peace, saturating your entire beings and worlds and bringing everything into perfect Divine Order through Divine Love. Here and now, still yourself for just a moment and *feel* yourself enveloped in dazzling Golden Flame for about nine feet around in every direction. Without tension, try to *feel* Its feeling and *rest* in that feeling. Perhaps at first you will only be able to concentrate for a few seconds, but if you will take a few moments every day to call this Golden Flame around you, you will experience a great relief from the

hustle and bustle of our work-a-day world. Nothing in this world can be a blessing to you *unless you accept it* so TRY this and see what it can and will do for you.

Did you ever think for even a few moments what the quality of Peace means to all life, no matter in what form that life may be? Somehow Peace seems to have become associated mostly with Christmas and the Angelic command for "Peace on Earth . . .". What can be permanently accomplished without Peace? The Great Ones have told us that the prayer which goes up most often from the mankind of this planet is "O, God! *give me Peace!*" (this spoken in every dialect and language—sometimes just in a silent cry from the heart). Health cannot be long sustained without Peace; real happiness is never found without It; business cannot expand without It; the Nature Kingdom cannot provide the necessities of life without it and so on. In paintings, we speak of farm scenes as being "so nice and peaceful" and today's trend in living is to move farther and farther away into the country—suburban living—away from the marts of trade and noisy machinery. It is considered beneficial to raise children in such environment and, while these outer provisions are all steps in the right direction for happier living, yet how many people realize that the *secret* of a peaceful mind, body, home and world lies in the God-control of his or her own feelings? This is a secret which is well known in the Orient, where the pace of living is less rapid than in the Western world. Folks everywhere are more and more desirous of having "world peace" but that can never come as a *permanent* blessing to mankind *until our individual worlds are at peace* (with our own loved ones and those with whom we come in contact). The whole is made up of its component parts and until the "parts" are peaceful (without *individual* wars) there can not come permanent Peace for the whole. Everyone loves Peace—everyone wants It for himself—therefore it becomes not only our duty but our priceless opportunity to try to *hold the Peace*, not only for ourselves, but for each other, when we see signs of irritation and distress begin to appear in another's world. The tendency of the personality is to mirror the feelings of each other; if one becomes disturbed, those around that one resent that disturbance of their Peace and become inharmonious themselves. As God's peace-makers, let us reverse this. "Blessed

are the peace-makers; for they shall be called the Children of God" said Beloved Jesus and He Himself was known as "The Prince of Peace". The ability to hold His feelings at Peace through unbelievable attempts to take it from Him, was His *practical* victory over the daily trials and distresses in this world of form. We are told that: "He was tempted in all points like as we are, and yet without sin". Jesus also said: "The things that I have done shall ye do also . . ."

Think a little about Peace; about how comforting and restful It is and *determine, first, to have It yourself.* Then you can give others that feeling too, for the very atmosphere of your world is contagious to those around you. Start in a small way—determine to hold *uninterrupted* Peace and happiness in your own feelings for just five minutes; then ten minutes and so on. When you can do this, it will be so comfortable and pleasant you will not want to ever be disturbed in your feelings again. TRY! TRY! TRY! This is the "watchword" of Beloved Serapis Bey's Retreat for you never know what you can do until you sincerely TRY! Then, "keep on keeping on" until you are a peace-maker of God to His children!

"I AM" Victorious All ways

FRANCES K. EKEY

SUGGESTED DECREES

"I AM"! "I AM"! "I AM"! the resurrection and the life of the Ascended Jesus Christ *feeling* of Cosmic Christ Peace—that Peace which surpasses the understanding of the mind—which I had with God in the beginning, before the world was—eternally sustained and ever-expanding. (Repeat 3 times.)

• • • •

In the Name of my very own Beloved "I AM" Presence, anchored right within my heart (from Whom comes the very energy and rhythm of its beating) I call to the Beloved Elohim of Peace (Whose very Ray is anchored in my forehead). Take immediate, complete and eternal command of all the energy in my feeling world. Expand Your Ray in my forehead until It fills my world for at least nine feet around me on every side, saturating *my* feelings with *Your feeling* of Cosmic Christ Peace. Make me truly feel it and then sustain and expand it for me until I become Yourself in action everywhere I move—a real

peace-maker among the children of Our Heavenly Father. I consciously accept this done right now with full power! (Repeat 3 times.)

Fraternally Yours

DEAR EDITOR: Enclosed are a couple of newspaper clippings for which we are so grateful as they prove the efficacy of our decrees. We have been calling for some time for the water element and especially the purification of our rivers. On Thursday of last week and the week before, we spent considerable time directing our forces through projected consciousness into an ice jam in the St. Clair river near here which has threatened the water supply. Last Thursday, particularly, we endeavored by visualization to create a stretch of open water in the center of the river in order that the ice might move out harmoniously. The enclosed clipping is from last Friday's paper. We are so grateful for the assistance of the Great Ones. We thought that these clippings might prove encouraging to others.—H. L., Canada.

(Excerpts of clippings referred to above: Free Press Sarnia Bureau "The great ice barrier remains intact from shore to shore at Courtright and Sombra but farther south, at Port Lambton, *a section of open water has appeared in the center of the river.*"

"The Thames River was declared number one pollution problem in Western Ontario. At an executive meeting of the 5000 strong Ontario Federation of Anglers and Hunters in Hotel London yesterday the group *adopted a resolution to get behind all projects in the area working toward a clean-up of the river* and to keep after towns along the rivershed to install sewage disposal plants to prevent pollution".)

EDITOR: This is proof of the efficacy of the Law called into action by a group of earnest students, using their collective energies impersonally for the benefit of the locality in which life has placed them with the hope that they would render just such service. Congratulations! If you could see the release of power from your force-field (which is established over the Sanctuary where your group meets rhythmically) into that ice-jam for which you were calling, your hearts would rejoice. These activities are real and practical in the extreme!

THE BRIDGE TO FREEDOM

A Monthly Journal Devoted to Individual Unfoldment, Contact with The Great White Brotherhood and Cooperative World Service

Volume V MAY, 1956 No. 2

To the Cosmic Spirit of May:

Blessings upon You, blessed Spirit upon Whose sweet essence so many Individuals among Our Company have ascended out of the toils of human shadow into the light of Eternal Day!

We do invoke the stimulating Presence of Your radiation to flow through the souls of men, resuscitating their spiritual selves which contain so much of the beauty and glory of God's Kingdom!

In this season when the Nature Kingdom expresses so fully the glory of renewed life, beauty and perfection, let mankind also experience the joy of a "rebirth" —each man a God—each woman a Goddess—each child a potential Cherubim of Light!

Many of Us remember the month of May as a month of personal liberation and victorious God freedom! We ask that all mankind may be sensitized enough to accept that which You offer and then utilize Your ascending rhythm to rise above all limitations into full freedom!
